*Great 50th reunion for our class of 1962! Fabulous support from the Medical Alumni Association staff for all the planned events. I enjoyed meeting Yas Sanaiha (M.D. Candidate 2015), our student scholarship recipient. It's a wonderful milestone knowing we have assisted the next generation of UCLA physicians.*

*Our thanks to the MAA for preparing a meaningful reunion event. Roberta and I were enlightened by the lectures and, once again, impressed by the breadth and talent of our UCLA faculty and alumni. The social activities could not have been better. We enjoyed the opportunity to reminisce with former classmates and renew old friendships. We look forward to the next reunion and doing it all once again.*

*Our reunion event was very well planned and executed, and I felt very "fussed over!"*

Lyons, Colorado**

*The Friday night reception was great for interacting with other reunion classes many from a different "era" than my own. The lectures Saturday morning were inspirational. The dinner and social time were also fun!*

Fresno, California**

*My wife and I were wowed by the vocals of the GeffeNotes, the medical student a cappella group. It was great seeing classmates Wade Aubry, Bill Hastrup, Jeff Silver and meeting their delightful wives.*
